FOR IMMEDIATE RELEASE

NEXTGEN HEALTHCARE/INTEL 7th ANNUAL INNOVATION AWARD WINNERS ANNOUNCED AT ANNUAL USERS GROUP MEETING

Clients recognized for innovative use of NextGen® solutions to achieve significant ROI, 70 percent patient engagement and Level 3 Patient Center Medical Home designation

Horsham, Pa. – November 13, 2012 – NextGen Healthcare Information Systems, LLC., a wholly owned subsidiary of Quality Systems, Inc. (NASDAQ: QSII) and a leading provider of healthcare information systems and connectivity solutions, this week revealed the recipients of its 7th Annual NextGen Healthcare/Intel Innovation Awards (formerly known as the Best Practice Awards). Winners were honored Monday evening at the NextGen Healthcare Users Group Meeting (UGM) in Orlando, Fla.

The NextGen Healthcare/Intel Innovation Awards recognize those NextGen Healthcare clients demonstrating exemplary use of NextGen® applications to manage their business and care for their patients. This year, clients leveraged NextGen® Ambulatory EHR, NextGen® Practice Management, NextGen® Patient Portal, NextGen® Health Information Exchange and NextGen® Consulting Services to help transform their practices and achieve a significant return on investment. Awards were presented to three clients regardless of practice size; one grand champion and two finalists:

- Grand Champion: Hunterdon Healthcare Partners, Flemington, N.J.
- Finalist: Barry Pointe Family Care, LLC, Kansas City, Mo.
- Finalist: Desert Ridge Family Physicians, Phoenix, Ariz.

For more information on each of the award winners, visit http://www.nextgen.com/awards2012/application.aspx

About NextGen Healthcare

This news release may contain forward-looking statements within the meaning of the federal securities laws. Statements regarding future events, developments, the Company's future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future (including, without limitation, statements concerning revenue and net income), are forward-looking statements within the meaning of these laws and involve a number of risks and uncertainties. Management believes that these forward-looking statements are reasonable and are based on reasonable assumptions and forecasts, however, undue reliance should not be placed on such statements that speak only as of the date hereof. Moreover, these forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, actual results may vary materially from those anticipated by the forward-looking statements. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are: volume and timing of systems sales and installations; length of sales cycles and installation process; the possibility that the products will not achieve market acceptance; seasonal patterns of sales and customer buying behavior; the development by competitors of new or superior technologies; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; undetected errors or bugs in software; product liability; changing economic, political or regulatory influences in the health-care industry; changes in product-pricing policies; availability of third-party products and components; competitive pressures including product offerings, pricing and promotional activities; the Company's ability or inability to attract and retain qualified personnel; possible regulation of the Company's software by the U.S. Food and Drug Administration; uncertainties concerning threatened, pending and new litigation against the Company including related professional services fees; uncertainties concerning the amount and timing of professional fees incurred by the Company generally; changes of accounting estimates and assumptions used to prepare the prior periods' financial statements; general economic conditions; and the risk factors detailed from time to time in Quality Systems' periodic reports and registration statements filed with the Securities and Exchange Commission. A significant portion of the Company's quarterly sales of software product licenses and computer hardware is concluded in the last month of the fiscal quarter, generally with a concentration of such revenues earned in the final ten business days of that month. Due to these and other factors, the Company's revenues and operating results are very difficult to forecast. A major portion of the Company's costs and expenses, such as personnel and facilities, are of a fixed nature and, accordingly, a shortfall or decline in quarterly and/or annual revenues typically results in lower profitability or losses. As a result, comparison of the Company's period-to-period financial performance is not necessarily meaningful and should not be relied upon as an indicator of future performance. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.
