HEALTHCARE

Presenter(s):

Catherine Magnall – Dir., Prof. Services
Andy Riedel – Assoc. Dir., Fed. Initiatives
Dr. James Lasaponara, DDS - Clinical
Advisor & Consultant

Topic

Meaningful Use

Level

Monday, November 12 – 3:00PM to 4:15PM

Things our lawyers make us say...

Neither NextGen Healthcare nor any presenter at the Users Group Meeting is engaged in rendering legal or other professional advice and this presentation is not a substitute for the advice of your attorney, accountant and/or other professional advisor.

Session Guidelines

- Turn off all cell phones & pagers
- Questions will be addressed at the end of the presentation
- Refrain from personal discussion

Agenda

- Meaningful Use 101 – Basic summary
- Dental Certification – What does this mean to me?
- FAQs – questions we're hearing
- Q&A

Meaningful Use 101

MU 101

- HITECH provisions of the American Recovery and Reinvestment Act of 2009 (ARRA):
 - Established *CMS EHR Incentive Programs*
 - Introduced concept of “meaningful use” of certified EHR technology
 - Identified two types of eligible providers - eligible professionals (EPs) and eligible hospitals (EHs)
- Meaningful Use (MU) broadly aimed at three areas:
 - Use of certified EHR in a meaningful manner (e.g., e-prescribing)
 - Use of certified EHR technology for electronic exchange of health information
 - Reporting of clinical quality measures (CQMs)
- Stage 2 Final Rule release August 2012, to be implemented in 2014

Meaningful Use Goals

Vision

Enable significant and measurable improvements in population health through a transformed healthcare delivery system.

- Improve quality, safety, and efficiency
- Engage patients and their families
- Improve care coordination
- Improve population and public health
- Ensure privacy and security protections

Health IT-Enabled Health Reform

A Phased, Incremental Approach

Stage 1:
Capture
data in coded
format

Stage 2:
Expand
exchange of
information in
the most
structured
format possible

Stage 3:
Focus on CDS
for high priority
conditions,
patient self
management,
and access to
comprehensive
data

Medicaid EP Overview

- Attestation opens state by state
- Physicians, dentists, CNMs, NPs, PAs (RHC or FQHC led by PA)
- 30% by volume Medicaid
- Six year program through 2021
- Maximum \$63,750
- Front loaded- 1st year \$21,250, following years \$8,500
- No MU reporting first year – just AIU attestation (adopt, implement, or upgrade)
- Can receive eRx bonus, PQRS and EHR incentives

Medicaid EHR Incentive Program

First Year	Medicaid EHR Payments (EPs)											Total
	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	
2011	\$21,250	\$8,500	\$8,500	\$8,500	\$8,500	\$8,500	-	-	-	-	-	\$63,750
2012		\$21,250	\$8,500	\$8,500	\$8,500	\$8,500	\$8,500	-	-	-	-	\$63,750
2013			\$21,250	\$8,500	\$8,500	\$8,500	\$8,500	\$8,500	-	-	-	\$63,750
2014				\$21,250	\$8,500	\$8,500	\$8,500	\$8,500	\$8,500	-	-	\$63,750
2015					\$21,250	\$8,500	\$8,500	\$8,500	\$8,500	\$8,500	-	\$63,750
2016						\$21,250	\$8,500	\$8,500	\$8,500	\$8,500	\$8,500	\$63,750

Stages of Meaningful Use

1 st Year	Stage of Meaningful Use										
	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
2011	1	1	1	2	2	3	3	TBD	TBD	TBD	TBD
2012		1	1	2	2	3	3	TBD	TBD	TBD	TBD
2013			1	1	2	2	3	3	TBD	TBD	TBD
2014				1	1	2	2	3	3	TBD	TBD
2015					1	1	2	2	3	3	TBD
2016						1	1	2	2	3	3
2017							1	1	2	2	3

Stage 1 Meaningful Use

- EP must successfully perform **20 out of 25 “functional” objectives**
- Some measures are yes/no attestation only, others require submission of numerator/denominator data
- Measures divided into:
 - Core (15) – EP must do all 15 but there are some exclusions
 - Menu (10) – EP chooses 5, one must be one of the public health objectives
- One of the 15 Core measures is to report on 6 Clinical Quality Measures (CQMs)
 - Three (3) Core CQMs must be met
 - Three additional CQMs must be met (EP’s choice)
- NextGen Healthcare uses:
 - “MU Crystal Reports” for reporting measures associated with Core and Menu functional objectives
 - NextGen HQM solution for reporting the CQMs

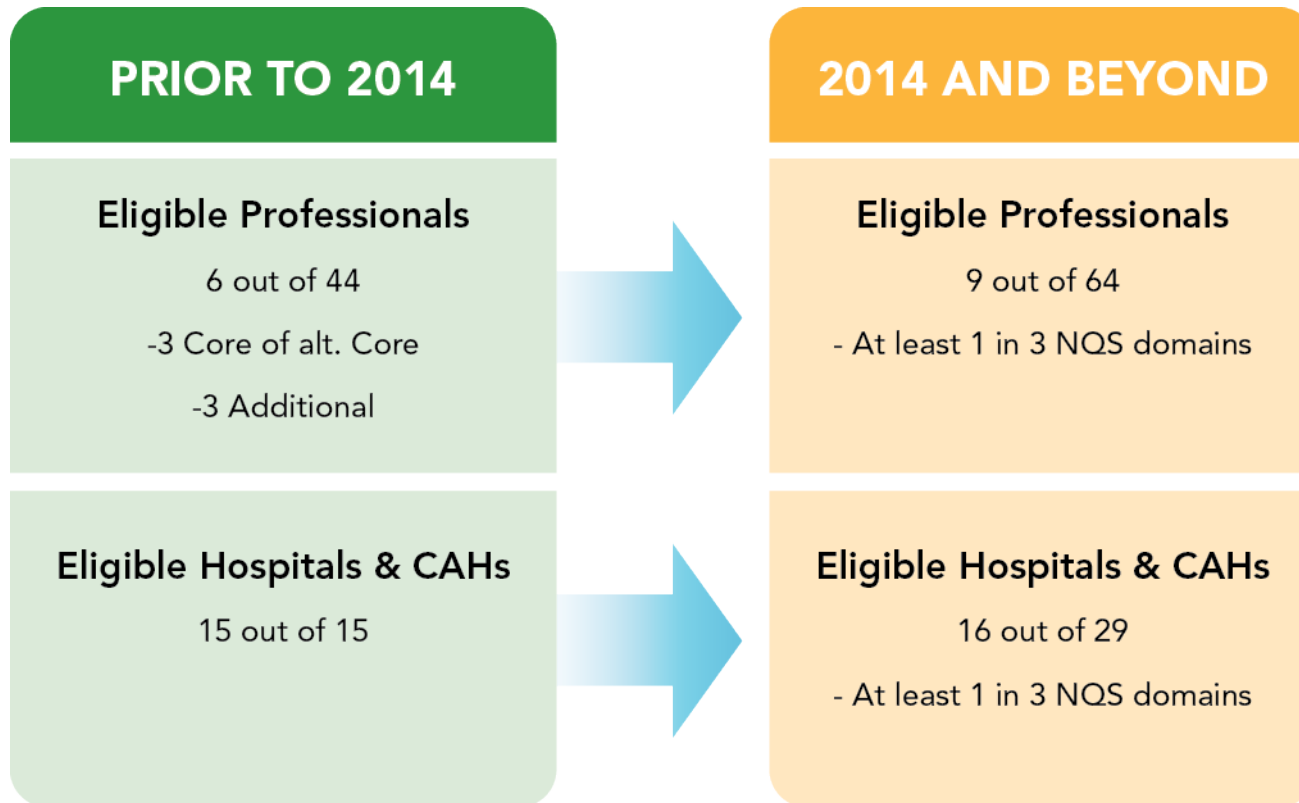

Core/Menu Structure

MU Stage 1 vs. Stage 2

- Reporting remains based on attestation
- Group/batch attestation submissions allowed beginning in 2014

MU Stage 2 – Clinical Quality Measures

Dental Certification

NextGen Certified Solution for dental

- **NextGen® EDR, version 4.2, 4.3**

NextGen EDR version 4.2 and 4.3 were certified as an ONC-ATCB Complete EHR on May 9, 2012 and complies with all clinical quality measures for Eligible Providers. **The additional software NextGen EDR version 4.2 or higher relied upon to demonstrate compliance includes NextGen Ambulatory EHR, v5.6 SP1 or higher.**

FAQs and Getting Started

MU Compliant Versions

- NextGen Ambulatory EHR Version 5.6 SP1 and higher
- KBMs 7.6.1 and forward have service packs with the additional fields to support the reporting requirements
 - **7.6.1 SP10**
 - **7.7 SP5**
 - **7.8 SP5**
 - **7.9 SP2**
 - **8.0.1**

Required Modules

- NextGen EHR version minimum 5.6 SP1
- NextGen *Medical Summary Utility*
- *HQM Module*
- Meaningful Use Crystal Reports*
- E-prescribing

*strongly recommended

Required (for specific Menu objectives)

- Lab interface
- NextGen Patient Portal
- Immunization interface
- Public Health reporting interface

MU Custom Templates

- What are MU Custom Templates?
 - A tool (set of templates) that will allow clients to extract the required data from their KBM regardless of its design and that will facilitate and support Meaningful Use attestation
- Why are they needed?
 - A significant and highly influential percentage of our client base is currently utilizing self-developed or highly customized versions of our KBM
 - This renders the Crystal Reports for Meaningful Use attestation inoperative
- Who are they for?
 - Clients who running non-NextGen knowledge base or highly customized versions of our NextGen KBM
 - Clients running older (pre-MU) KBM who need to capture MU data and report prior to upgrade
 - Good solution for dentists and staff... MU focused w/out medical content

FAQs

- Q: What does a provider have to do in EDR vs. EHR to meet MU objectives
- A: All objectives are met and measures reported in EHR

- Q: Who benefits from the MU certification of NextGen® EDR and is it helpful to standalone dental practices?
- A: Main beneficiary – CHC or multispecialty clinic that has already deployed NextGen Ambulatory EHR. Standalone dental practices are not likely to implement NextGen Ambulatory EHR.

- Q: Are part-time providers eligible and if so what are the minimum number of hours a provider must work in the clinic?
- A: There are no time requirements, but 50 percent or more of an EP's patient encounters during a given EHR Reporting Period must occur at a practice/location equipped with certified EHR technology. The EP may meet the 50 percent threshold through a combination of practices or locations, as long as each one is equipped with a certified EHR.

Workflow Considerations

Measures which may require direct input of data by dentist or dental staff (although typically captured by medical departments):

- CPOE, Problem List, Medication List, Med Allergy List, Demographics, Smoking Status, Security Risk Assessment (clinic responsibility)

Measures which more likely require action by dentist or designated staff:

- eRx – EHR eRx screen launches from EDR
- Vital signs
 - Vitals captured during the reporting period by another provider count
- Test of data exchange (only in 2012)
- Clinical summaries
- Education
- Most of the Menu Measures

Set-up and reporting related:

- Drug interactions and formulary features enabled for provider
- CQM Reporting

How do you get started?

- Register for EHR Incentive Program at <http://cms.gov/EHRIncentivePrograms>
- Implement NextGen EDR and NextGen Ambulatory EHR (or upgrade to certified versions if needed)
- Work with clinic administration and/or “MU coordinator” to develop appropriate workflows
- Recommended - take MU classes and utilize other resources offered through Meaningful Use Readiness Center
- Achieve MU (year two of participation in Medicaid EHR Incentive Program)
- Attest

Meaningful Use Resources

- Meaningful Use Resource page on Client Resource Center (CRC)
 - FAQs
 - HQM White Papers
 - Crystal Reports Guide
 - Upcoming training sessions
- (Internal) Questions – MU411 Outlook email group
- CMS “MU homepage”

The screenshot shows the 'Meaningful Use' page on the NextGen Healthcare website. The page header includes the NextGen Healthcare logo and navigation links for Client Resources, Store, About, News, Events, and Contact. Below the header, there are tabs for Products, Services, Solutions For..., Why NextGen, and Community. The main content area is titled 'Meaningful Use' and features a section for 'Meaningful Use Resources from NextGen Healthcare'. This section includes a congratulatory message, a checklist for starting the path to Meaningful Use, and a list of training options available, such as a 2-day in-depth MU seminar and complimentary webinars. A 'Downloads' section lists various resources like the Ambulatory Path to Meaningful Use for NextGen Clients, Meaningful Use FAQs, Medical Summary Utility Guide, Health Quality Measures White Papers, NextGen Meaningful Use Crystal Reports, and Core Measure #10: Clinical Quality Measures Recommended by Specialty. On the right side of the page, there is a sidebar with the text 'NextGen clients are on the road to Meaningful Use. Are you?'.

Any Questions?
