

Improve data accuracy, integration, and dental practice outcomes

Enhance clinical and financial
outcomes with integrated
dental and medical data

Achieve the next level of dental
care with NextGen® EDR

See the benefits of a single, seamless, integrated software system for the clinical and administrative functions in your dental practice. **NextGen EDR delivers** – and sets you up for **MU success and intelligent growth.**

Streamline administrative and clinical functions

Your dental practice needs a cohesive software system that works together to automate and streamline administrative and clinical functions. Create a platform for growth, accountability, improved patient experiences, and a happy, productive staff. Empower your organization to meet your Meaningful Use (MU) goals. Achieve true electronic integration.

Learn how NextGen Electronic Dental Records (NextGen EDR), NextGen Ambulatory EHR, and NextGen Practice Management (NextGen PM) work together for better results.

Capitalize on a combined, certified solution.

Only NextGen Healthcare offers a single, ONC compliant* dental and medical patient record solution. Combined with NextGen® PM, these solutions are unique in the industry and can improve every aspect of the practice, group, or clinic – from patient encounter to clinical, financial, and enterprise management.

NextGen EDR version 5.0 is 2014 Edition compliant and has been certified by ICSA Labs in accordance with applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services. ONC CHPL Number: 140310R00. Read more about our certifications at <https://nextgen.com/Certifications>

NextGen Ambulatory EHR version 5.8.2 is 2014 Edition compliant and has been certified by ICSA Labs in accordance with applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services. ONC CHPL Number: 140204R01. Read more about our certifications at <https://nextgen.com/Certifications>

Digital healthcare delivery integration, higher quality outcomes, and a more easily manageable dental practice are finally possible with the combined NextGen EDR, NextGen Ambulatory EHR, and NextGen PM software solution.

Enjoy the rewards of full digital integration.

Distinguish your practice in the marketplace and community by achieving true healthcare delivery integration with NextGen® EDR, NextGen® Ambulatory EHR, and NextGen PM software.

Create a more manageable operation while improving your patients' experience before, during, and after an appointment. Optimize care delivery for each patient's unique clinical, social, and financial circumstances.

NextGen Healthcare delivers this performance with the only seamless path to digital integration. No matter where you are on the timeline of EDR adoption or integration, we can support your growth and care objectives and help improve your outcomes quality. And that means you can reap the benefits of improved population health.

Use real-time data for better care

Get real-time data for critical information such as patient prescription history, medication management, and the drug database. Improve treatment planning via open, integrated access to patient data.

Simplify information entry and access

Simplify information access to enhanced charting options and user-defined filters. Simplify and customize data entry using multi-specialty data capture palettes.

More flexible, comprehensive charting

Facilitate fast, easy charting. Provide better care and reduce training time. All with an improved user interface and group treatment plans. Replace cumbersome typing with faster, easy mouse clicks. Quickly detail services based on exact tooth surface treated – plus, use the tooth chart to access full treatment history.

Improve navigation and patient record keeping

Use the clean, simple patient summary screen for a comprehensive view of patients. Get faster, better information with enhanced patient search options. Quickly access digital radiography, x-ray, and imaging.

Simplify, speed setup and administration

Use one log-in screen for NextGen EDR, NextGen Ambulatory EHR, and NextGen PM

Maximize convenience by assigning user access levels all from one place

More quickly and easily maintain users by assigning security settings based on user groups

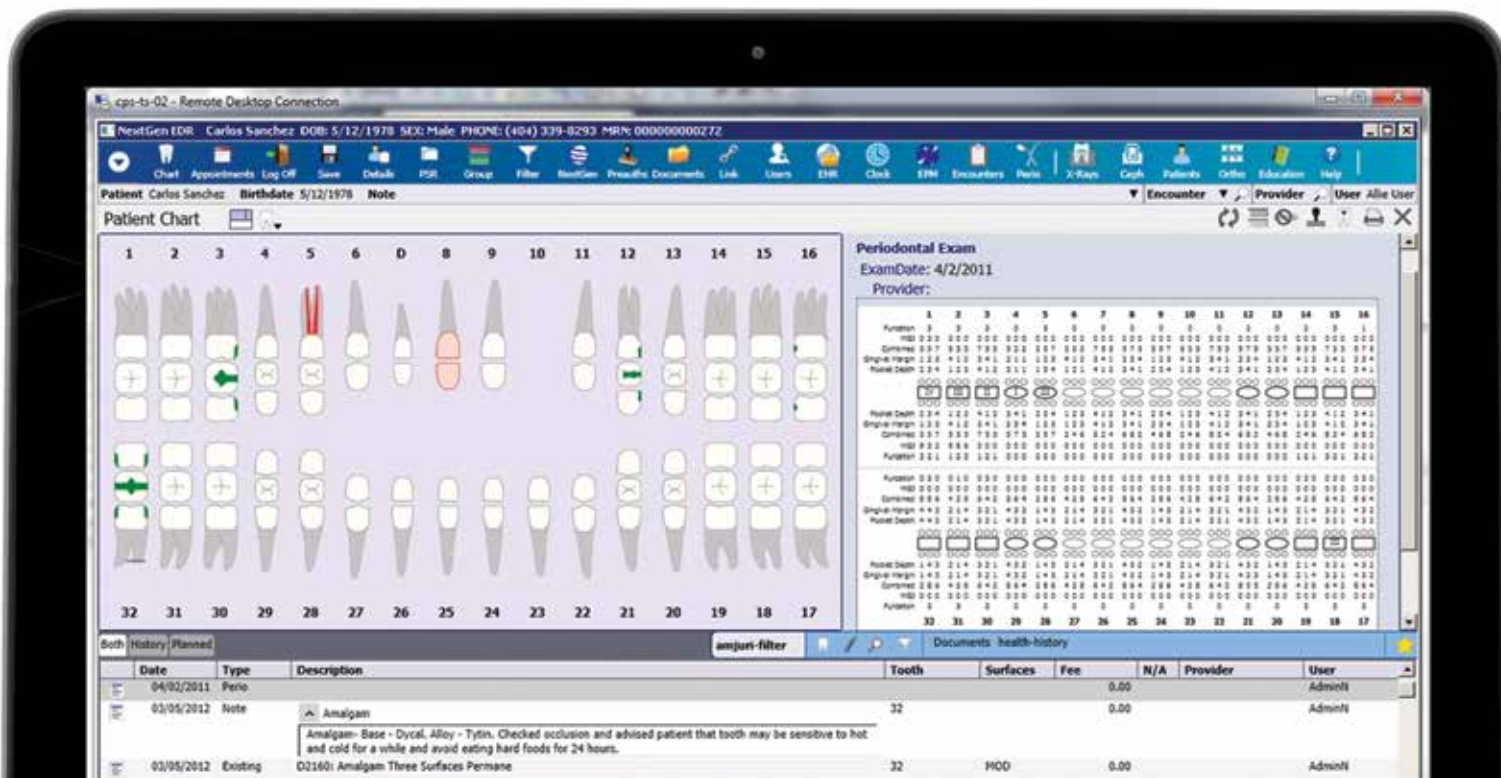

“One of the benefits of having a single patient record is that everyone is always looking at the same information. It’s always up to date.”

Teresa Cardoni,
Programmer Analyst, *Cares Clinic*

With the NextGen Healthcare
complete solution, you can
stop worrying about having the
right support to hit your Meaningful
Use goals and start **actually**
reaching those goals.

Enhance patient satisfaction and outcomes.

- Improve workflow, accuracy, and productivity using graphical tooth charting, voice-activated periodontal charting, and "Smart Note" technology
- Improve patient safety using critical patient alerts
- Increase patient understanding and compliance using patient education modules
- Enhance cultural sensitivity with multi-lingual patient education

Improve operational efficiencies.

- Centralize patient appointment scheduling, accounts receivable, and billing management for better accuracy and productivity
- Simplified compilation of UDS reporting data
- Enhanced CHC encounter billing
- Create automatic clinical data flow into charge entry
- Reduce billing errors and help ensure proper coding using "Smart Logic"
- Further maximize integration and automation using NextGen® Electronic Data Interchange (NextGen EDI)

Take the Next Step.

See why digital integration is vital to simplified management and better patient outcomes.
